

A History of Israel: From the Bronze Age through the Jewish Wars (English Edition) eBook : Kaiser, Jr., Walter C., Wegner, Paul D By Walter C. Kaiser, Jr. But I must say that I had a little cause for pause at an error on page 117 in the biblical narrative about Joseph in prison when he interpreted the dreams of the butler and baker. And no one on the editing staff was meticulous enough to catch this simple error at a pivotal moment in the birth of Israel? This makes me wonder about the author's and editing team's knowledge of the bible's narrative of the History of Israel.

I'm new to archaeology so this has been a good primer on biblical history and the supporting archeological evidence. The bible makes such sense I also got 1 2 kings Chronicles Esdras Isaiah Ezekiel Jeremiah Bible Commentaries (by NICOT or The New American Commentary) to fill in to expand the bible portions thus to get the big picture with details. With a meaningful blend of archaeological and biblical data Kaiser presents students of the Bible with relevant information concerning the events and A History of Israel: From the Bronze Age through the Jewish Wars (English Edition) eBook : Kaiser Jr. Wegner Paul D This book explained even than I had expected! On Page 538 the authors mention what no other biblical chronologist explain; That Hezekiah's 'total' reign was from 729BC to his death in 686BCE. So Hezekiah at just 11 years old in 729BC was 'co king' with his father Ahaz for 14 years until the death of Ahaz in 715BC Interesting! Very interesting! Perhaps the 'Total' 25 year period from the so called 'death' of King Uzziah in 750BC when Uzziah became 'A Leper' to his death in 725BC is part of the missing years of the Jewish calendar count of 167 years TOTAL! That would confirm that Uzziah was 16 years old when in 3115AM 777BC the people took him as king 15 years before the death of his father Amaziah in 3130AM 762BC:

So I cannot provide a comprehensive review of the book: This book on the History of Israel says the baker was released and later remembered that Joseph could interpret dreams when Pharaoh himself had one that needed interpretation: But the bible says the baker met an untimely death by hanging (Genesis 40:22). And I must admit I too must think twice before saying the butler was restored and the baker hanged: It does make me wonder though about the care and detail that went into confirming the Bible's narrative. I didn't even know that bronze was an alloy of tin and copper. I am only at page 119 in the book which gets rather complicated when the nation splits in two: A History of Israel: From the Bronze Age through the Jewish Wars (English Edition) eBook : Kaiser Jr, Wegner Paul D This is one of those books that must remain in the Bible student's personal library: I recommend it for its rendering to the one of the most honest stories ever told the History of Israel, Excellent for Old Testament studies and also to provide context for the intermediate period between the last book in OT and the Gospels. A History of Israel: From the Bronze Age through the Jewish Wars (English Edition) eBook : Kaiser Jr: Wegner Paul D To anyone interested in bringing bible history to life this is the one book you have to have, The material is awesome; crystal clear and anyone can verify the facts in a good History Page in the Internet. Which I found very motivating to do so search where some of the places are with our time names: A History of Israel: From the Bronze Age through the Jewish Wars (English Edition) eBook : Kaiser Jr, offers a persuasive Evangelical view of Israelite history during the Old Testament, Uzziah would be 28 years old and have reigned 12 years in 3130AM 762BC, Uzziah would be 31 years old when Amaziah actually died in 3130AM 762BC. Uzziah would be 43 years old at the 'Earthquake' of Amos 1:1 in 3142AM 750BC when Uzziah 'died' (??): Jotham his son (governed) from 750BC to 747BC and was 'co King' for another 16 until his own death in 3161AM 731BC: Ahaz his son was vice king from 744BC to 735BC (17ty year of Pekah in Israel) which WAS in 3157AM 735BC. And Ahaz was 'co king' with Jotham for 20 years from 735BC to 715BC when Ahaz at just 36 years of age died 3177AM 715BC: Yes A History of Israel is a great Read and vastly illuminates the 25 years of King Uzziah's 25 years of suffering as a leper, A History of Israel: From the Bronze Age through the Jewish Wars (English Edition) eBook : Kaiser Jr, Wegner Paul D The book is full of information or facts about Israel, When i make research for the Bible Study it is a great help!
