

Death of a Cantankerous Old Coot (Lizzie Crenshaw Mysteries) By Teresa Watson Mystery Cute! I loved how this story flew through but you were sucked in the entire time! I knew how it was going to end.

But it was great! I pictured the voices of the characters in my head. I love these cozy mysteries I found it rather disturbing that people I had known my whole life had actually spent time trying to figure out how to get rid of the one man who made everyone's life miserable. Set in a small Dallas town of a population of less than 3000.

I'm the daughter of a semi retired Methodist minister and have spent most of my life living in Texas and New Mexico (no I am not a native Texan; I was born in the state of Washington). If there is something else you want to know ask me! Death of a Cantankerous Old Coot (Lizzie Crenshaw Mysteries) Amos Gardner was indeed a very cantankerous old coot hated by virtually everyone in the small town of Brookdale including his own family. I admit I haven't read many books in the cozy mystery genre so I like having my heart rate accelerate with the rising tension as our sleuth gets closer to unmasking the murderer. I really enjoyed this book! It isn't often I find a book that's a quick read that enjoyed as much as I did this one! Made me wonder if there is really people like Amos Earline and Barbara in this world which there probably is and I'm glad I don't know them! Would love to see Lizzie and T. He'd drive in town and park in the middle of the street & go shopping. One day in the town square his truck was found in the street with the keys in it but no Amos around till someone found him in the park shot between the eyes: They found out who did it but for one lady the saga goes on for her. Mystery

This is a funny mystery and getting to know a new set of characters. The Lizzie is trying to figure out who murdered her grandfather who is considered one of the most cantankerous old man in town. New series and a great start with a most interesting cast of characters. I was about 70% through when I got a suspicion who the murderer was and I was right: I graduated from West Texas AM University with a bachelor's degree in 2000: I taught school for a couple of years before realizing that I really wanted to spend my time writing: Currently I live in North Texas with my husband and my son has gone off to college: I have a wicked sense of humor and find almost anything funny: He was so cantankerous he sued his own granddaughter trying to get property that rightfully belonged to her, So it was no surprise to anyone in Brookdale that the old goat was found shot dead on the merry-go-round in the town park, The list of suspects was quite long of course and included not only Amos' 1st and 2nd wives but also Lizzie the granddaughter he was suing: I enjoyed all the characters and look forward to meeting them again in future books, Mystery Too cozy for me This cozy murder novella starts well with a dead old man on a merry-go-round: Nobody in the small town likes him wife and family included so the list of suspects grows long from the get go: However the book doesn't change pace from there remaining a very light-hearted dialogue driven story through to the conclusion, Cozy is nice but this was Love Boat cozy y'know where the story never deviates from the sense that everything will work out in the end, If that's what you want in a cozy mystery this book is for you: There are some odd editorial issues in the narrative that threw the boat off course too. One example is chapter eight which switches from Lizzie's first person perspective to T: Given nearly all of the book is told from Lizzie's perspective in first person it pulled me right out of the book. A crazy

title a strong female lead and a decent story that rattles along at a pace that keeps your interest from start to finish. What more do you need? Loved the front cover too sort of murder never happens and Amos Lizzies granddad was a blessing as he was so disliked: Mystery Funny and Thrilling I liked this book because it was full of funny characters, She is thrown into a mystery of who amongst a town full of people that all seemed to hate the deceased actually killed him, Family skeletons come tumbling out of the closet and most of them concern her: Throw in a love interest and there is something for almost everyone. And a plot full of twists that keep you guessing to the very end. I enjoyed reading this so much I bought the next book the author wrote, Mystery Great short story full of humor and the beginning of a love affair[1]

I'm a daughter mother wife sister granddaughter. That's about it. This was a delightful fun read. Shot in the head dead. There's no doubt it's a murder. You'll have a good time. J.'s perspective in third person without even a line break. Details matter for a smooth read. There's good stuff here but for me it lacks polish. Mystery Bang on target What a refreshing change. Lizzie a budding writer and finder of a dead body. □ Mystery A great read. A humorous story. A feisty heroin. J. in the next book. Mystery.
